NORTH KOREA

## ABSTRACT

1. This report locates and delineates major army units subordinate to the South Infantry Division, Second Army Group, North Korea. The report is based on analysis of photographic coverage from October 1972 to December 1973; it contains a location map, a table, and a photograph. The purpose of this report is to combine point targets into area targets to provide more meaningful reporting.

## INTRODUCTION

2. The North Korean Second Army Group is responsible for the security of the western sector of the Demilitarized Zone (DMZ) and commands five infantry divisions and a medium tank regiment. Major units of an infantry division are three infantry regiments, an artillery regiment, a mortar regiment, a tank battalion, and a headquarters.

3. This report is the fourth in a series<sup>1-3</sup> on the Second Army Group and is designed to realign the boundaries of existing Basic Encyclopedia (BE) point targets into BE target areas. Realignment of the BE boundaries has been coordinated with DIA and CIA analysts and appropriate BE action has been taken by DIA. In the future, the entire South Infantry Division will be reported under the existing BE number now assigned to the headquarters. The area nomenclature and boundaries have been arbitrarily assigned for reporting purposes.
